Site Mngr: Jacob Mogolego  
Tel. 086 199 5044 / 076 722 4024

# About Nkgatela Security

## Why work with us?

Security is a complex, often expensive solution, imagine a team that delivers intelligent, responsive, customised solution- that team is Nkgatela Security. Our team has experienced executives, in-house trained guards, using the latest tech to combat crime & criminal threats at your business.

## Cause we use 'Intelligent' security

This intelligent thinking make it easier to flag undesired entries and pick up trends for reporting purposes, all led by a designed, suitable response mechanism.

**We monitor** our guards' movement both during and after work to deter internal crime acts.

**We advise** facilities management to deploy concealed guards onsite-off the rooster making it harder for criminals to assess security.

**We use** concealed cameras, great for private homes, warehouses (merchandise theft) and public spaces, i.e. malls and offices.

## We determine Risk prior

Protection of assets can never stem from a single format; every client is different, hence we undertake risk assessment prior working on a site to ensure minimal, undetected entries, that working personnel are assessed and recommendations are discussed with management for an informed security protection.

We pride ourselves in providing intelligent security solutions that evolve with the ever changing world of technology.

# Security Tech covers

...

- Electrical fencing
- Biometric connectivity
- Closed Circuit Television (CCTV)
- Number Plate Recognition Systems
- Alarm Systems, Traffic Sensors & Lights
- Motor Gate installation & Maintenance

## Tech installation reference:

in September 2021 we installed 12 remote gates (incl. motors) for HMS Group for twelve guest houses. Total project was 96k.

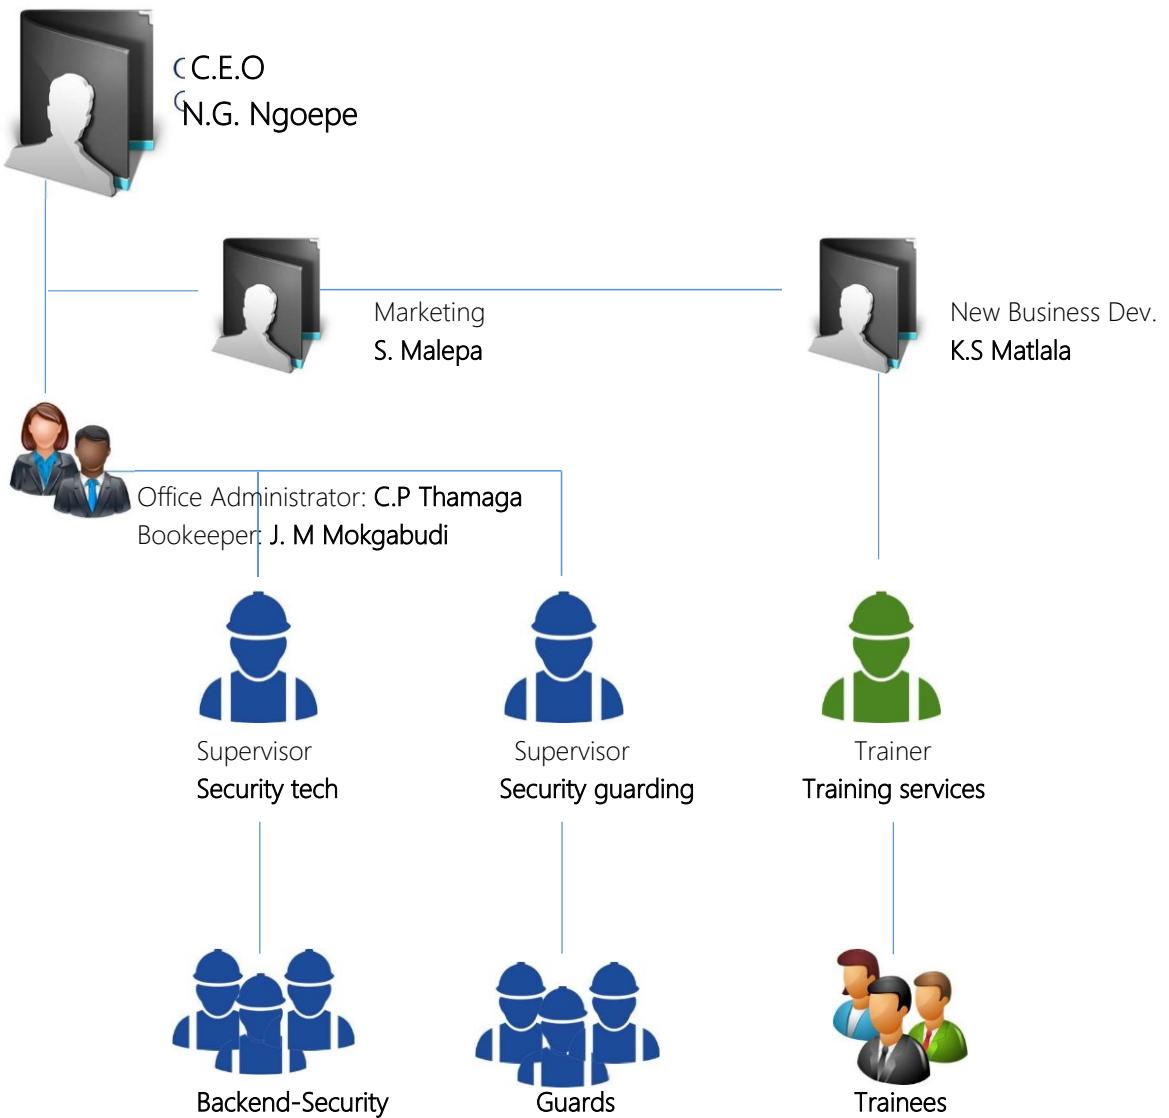

**CEO: Marcia Shokane**

**Tel. 012 306 8143 / 073 017 1896**

# Our Incredible Team

Nkgatela is a vision of Gift Ngoepe, a former security officer. He observed how many security entities rendered service remotely leaving sites with novice officers, rendering unprofessional services- he decided to build a security company to offer professional service on 3 pillars; Duty as a service; Security never rests and Reputation

# Security Training covers

...

- Basic PC training (advance)
- Course E; D; C & B
- Access Control Training
- Control Room & CCTV Training
- National Key Point Training
- Basic Patrol

## Tech installation reference:

During 2016 to 2018 we rendered security guarding services (night shift only) and access control to King's Hope Foundation

M.D: Asnath Teffo

Tel. 071 609 4793

# Our (Safe) Clients

...

[Current] Nhlonhlori Tilo T/A Telegenix 655
